Listed are outfits that will cover everything from 1 day to 8 day trips, for both bait and jig fishing. It is difficult to break these down further, because:

- You may need to be prepared to fish Guadalupe Island,
- Monster Bluefin tuna may be close to San Diego,
- Considerations for an El Nino year vs. normal year,
- Fish could be small or big and having light outfits along with heavy outfits allows you to have the most fun!

In general, you will primarily be using 30 lb., 40 lb. and 50 lb. outfits. An 80lb outfit is always good to have for trolling or dropper loop bottom fishing.
